

SNOWFLAKE DECORATION

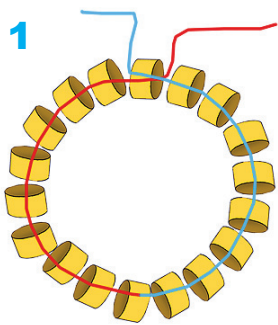

Materials

- 5g gold size 11 silver lined rocailles (S1132C)
- 5g iridescent clear size 11 rainbow rocailles (R1105C)
- 3 gold 8mm faceted AB (moon) beads (GLPE0832)
- 3 clear 6mm faceted AB (moon) beads (GLPE0632)
- 1 reel steel lacemakers wire 0.2mm (BLW0.2)

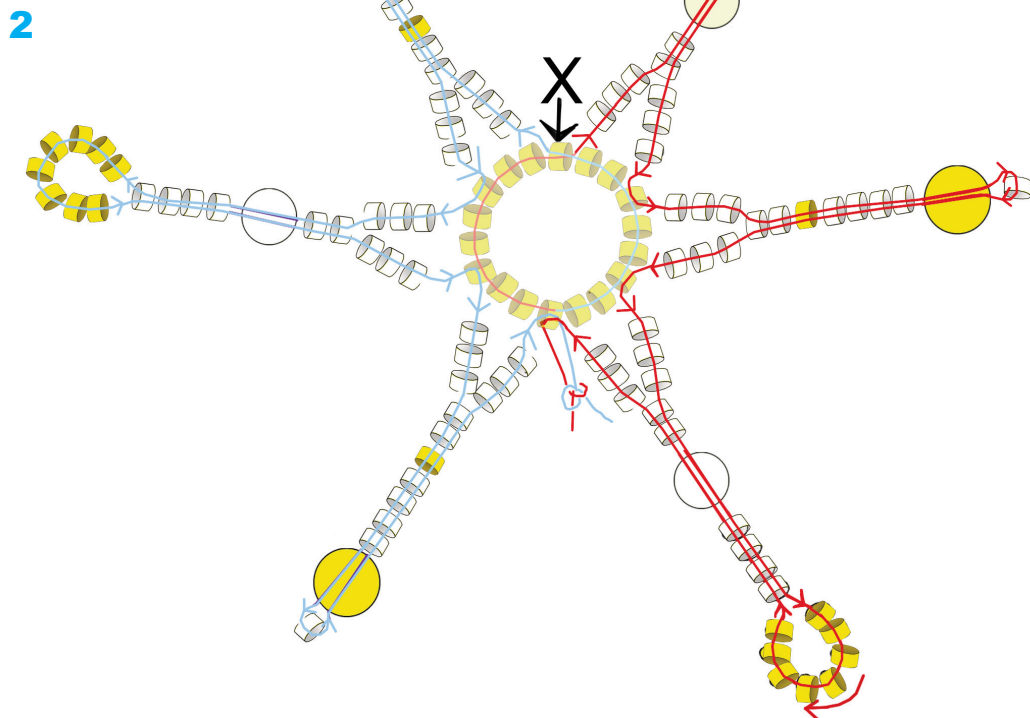

Opposite ends of the wire are shown in different colours (red and blue) to make it easier to follow.

BEGIN IN THE MIDDLE OF THE WIRE.

1. SNOWFLAKE CENTRE - Cut 100cm of wire. Pick up 18 gold rocailles. Keeping the beads in the centre of the wire, pass the end of the wire through the first rocaille added and pull tight to form a circle.

Keeping the beads in the centre of the wire, pass the end of the wire through the first rocaille added and pull tight to form a circle.

2. MAIN SNOWFLAKE - Start at X where you came out of the gold rocaille. To make the first 3 branches, begin with the 'red' end of the wire and add beads as shown. Repeat with the 'blue' end to make the remaining 3. Close to the snowflake, twist the 2 wires together several times to secure. Snip of any excess wire. Fold the twisted wire neatly.
