

## Glamorous Ring

Materials:

- 1 x 10 loop finger ring (FR10)
- 2 packets (24) x silver plated headpins (HPSP)
- 2 packets (24) x 3mm silver-plated metal spacer beads (25B331)
- 24 (aprx) x 4mm aqua glass bicones (GLRE25)

You will also need 1 pair x craft multi pliers (CRMT)

1. Pick up one metal spacer bead and one aqua bicone on a headpin. Using the cutters part of your multi pliers, cut the headpin a good centimetre above the bicone.

2. Using the round nosed part of your pliers, curl the headpin into a loop but do not close it completely.

This glamorous and unusual finger ring takes minutes to make and adds instant glamour to your fingers. Wear with matching nail varnish for a stunning look.

3. Hook the loop onto one of the ring loops and close completely with the round nosed pliers. Repeat this process with the other headpins. If you wish you can add just one bead to some of the headpins so the effect is a little more random. You can also use less headpins for a more subtle result.
