5 x plastic filigree bead gold plated (MPEC32)

1 x 5g Czech Rainbow 8/0 rocailles iridescent brown (R814C)

You will also need a pair of multi pliers (CRMT)

1. Open an 8mm jump ring attach a trigger clasp, two more 8mm jump rings then close the jump ring. Open two 8mm jump rings, attach them to the previous two that were added, add two more and close both of the jump rings.

2. Continue adding jump rings in this way to create a chain. When you have added 27 links, add a single jump ring, this will be part of the clasp.

3. Onto a headpin pick up any bead, you will need to add a roccaille to the headpin to keep the glass ovals in place. Trim the headpin a centimetre above the bead. With the round nosed part of your pliers bend it into a loop and close.

4. Repeat step 3 for all of your beads. Only use one 4mm bicone per headpin and put these aside.

5. Open an 8mm jump ring, add one of your beaded headpins and join to the bracelet making sure you loop through both of the jump ring links. Close the jump ring. Add your beads in this way along the bracelet varying the beads as you go, spacing them evenly.

6. Open a 5mm jump ring and add a headpin with a 4mm bicone join to the bracelet, loop through both of the jump ring links. Close the jump ring.

7. Add the 4mm faceted beads along the length of the bracelet. Add some jump rings with two or three bicones to the bracelet. Make sure they are spaced evenly.
